WORK EXPERIENCE

Senior Software Engineer

Tech Innovations Inc. | San Francisco, CA

January 2020 - Present

- " Led development of microservices architecture serving 2M+ daily active users, reducing latency by 40%
- " Architected and implemented real-time data pipeline using Kafka and Lambda, processing 100K events/hour
- " Mentored team of 5 junior engineers, conducting code reviews and establishing engineering best practices
- " Migrated legacy monolith to cloud-native architecture, reducing infrastructure costs by 35%
- " Implemented comprehensive testing strategy (unit, integration, E2E) achieving 85% code coverage
- " Collaborated with product and design teams to deliver 15+ features in agile sprints

Software Engineer

StartupXYZ | San Francisco, CA

June 2018 - December 2019

- " Built and maintained full-stack web application using React, Node.js, and PostgreSQL
- " Developed RESTful APIs and GraphQL endpoints consumed by mobile and web clients
- " Optimized database queries and implemented caching strategies, improving response times by 60%
- " Participated in on-call rotation, resolving production incidents with 99.9% uptime SLA
- " Contributed to CI/CD pipeline setup using GitHub Actions and AWS CodeDeploy
- " Worked closely with UX designers to implement pixel-perfect responsive interfaces

Junior Software Engineer

Digital Solutions Corp | San Jose, CA

July 2016 - May 2018

- " Developed customer-facing features for enterprise SaaS platform using Angular and Java Spring Boot
- " Fixed bugs and implemented enhancements based on customer feedback and requirements
